

International Day of People with Disabilities

The senior class attended the International Day of People with Disabilities celebrations and activities in the city centre square.

The students had an opportunity to participate in Zumba, watch some theatrical performances and listen to some inspiring talks. They also had a good time socialising with friends from outside the school including former students. Students could also access service provider's information and promotional giveaways.

Gav Vanderkly, Support Teacher

Our very own THS student Bailey Herring performing on stage below.
